

Hi

Howdy

Talofa!

Hi!

Aloha!

Data
management!!!!

**This is a
test. Only
a test**

♥ **Hi
there**

Hello!

Hello!

howdy!

Group

#1

**Volunteers
don't use. I
don't think
they see the
value.**

**We use our
data to qualify
for the Main
Street
program**

Staff

**Grant
reporting,
celebration of
their work.**

Group #3

[yellow] What challenges do you experience with volunteer data management?

getting individuals to submit hours

spreadsheets

[green] How do you use your data to support your volunteer program?

report total number of hours and volunteers

grant reporting

data graphics

[pink] Who in your organization looks at/uses volunteer data?

volunteer coordinator

parks advisory board

not as many people as we would like

volunteers

Group #5

[yellow] What challenges do you experience with volunteer data management?

Lack of organizational structure

Not as fully featured as we would like (difficult to customize)

Different tech circumstances for volunteers.

[green] How do you use your data to support your volunteer program?

Tracking volunteer hours for awards & recognition

Compile data for grant applications

VISTA Quantitative reporting & supporting positive impact of elders on students' lives and vice versa

[pink] Who in your organization looks at/uses volunteer data?

VISTA Coordinator, School team (CEO, Principal, etc), other stakeholders. Interested families.

Typically leadership (both staff & board)

Group #6

[yellow] What challenges do you experience with volunteer data management?

[green] How do you use your data to support your volunteer program?

[pink] Who in your organization looks at/uses volunteer data?

Having enough administrative help to take care of the "back end" volunteer management duties

The program we currently use is not user friendly for reports and we are currently in the process of switching programs.

Tally hours and communicate value of volunteers

Use contact info

Staff

End of the year metrics

Tracking hours actually worked by volunteers.

It is challenging to track volunteers and engage volunteers across various departments.

Funding applications

Volunteer awards

Team leaders

#7

We use EveryAction - really a crm for donors. It has volunteer aspects and it is okay.

We use EveryAction for volunteers. It's a challenge; kind of a CRM but not really.

e-tapestry: very complicated! Bulky, too many bells and whistles

Using Altru- great to have customers, donors, volunteers in 1 place but volunteer side is relatively underdeveloped

[green] How do you use your data to support your volunteer program?

We would like to do so. We use it for thank you cards and to identify potential volunteers for events.

Keeping track of contact info, growing volunteers into donors

[pink] Who in your organization looks at/uses volunteer data?

Mostly just volunteer coordinator - other ways of tracking volunteer contributions is scattered across departments

Just me and Chris, my supervisor!

Our political and organizing group - they ask the volunteers for participation in advocacy. Fundraising for events.

Group #8

[yellow] What challenges do you experience with volunteer data management?

Legality on volunteer data online

Tracking updated qualifications such as volunteer terms/background checks

Moving from paper to electronic

Staffing to manage volunteer data and integrate with all departments

Consolidating all data into one, holistic system

[green] How do you use your data to support your volunteer program?

Showing importance of program

Grant funding

Show impact of volunteering on organization

IMPACT- BOD, Community, Staff, Volunteers. Look at collective impact on success of Mission

Recruitment and engagement of volunteers in opportunities

Celebrate via story telling

[pink] Who in your organization looks at/uses volunteer data?

Sign up
genius lets
you swap
volunteers

[yellow] What
challenges do you
experience with
volunteer data
management?

Onboarding
process, if someone
expresses interest it
is done on Google
Forms, but won't be
able to use Google
because limited
control over Google

Data management:
how to chase 150
notes, streamline.
More than one
person can manage.

New system
suddenly for
vaccine
volunteers: 6
shifts, 70
volunteers

[green] How
do you use
your data to
support your
volunteer
program?

[pink] Who in
your
organization
looks at/uses
volunteer
data?
